

# SQUASH FLOORS

In fast games like squash and  
racket ball a floor with high  
degree of friction is essential

# PERFORMING ON DANISH DESIGN

## FACTS

### SAFETY AND PERFORMANCE:

- ✓ Unique area-elastic properties
- ✓ Optimal shock absorption, friction and ball bounce
- ✓ Tested and approved according to EN 14904

### CHOOSE BETWEEN:

- ✓ Fixed and portable floor solution
- ✓ Solutions for flat or uneven sub floors
- ✓ Floor System thicknesses from 32-245mm

### JUNCKERS SQUASH FLOORS ARE:

- ✓ Supplied untreated with a slightly roughened grit 40 surface.
- ✓ Can also be supplied with one coat of lacquer. Preferred by many to ease maintenance of the floor and it does not affect the friction properties.
- ✓ Guaranteed for use on Under Floor Heating
- ✓ Easy to clean and care for

### WE GUARANTEE:

- ✓ Technical back-up for the lifetime of the floor
- ✓ A floor solution lasting for generations
