

# SYLVADISSOLVER PRODUCT INFORMATION

## GENERAL DESCRIPTION

SylvaDissolver is a water-based degreaser designed for cleaning resin off floors.

The product is added to the freshwater tank in washing machines.

## PRODUCT DESCRIPTION

**Product:** Alkaline, water-based concentrate.

**Package sizes:** 5 and 10 litres.

**Declaration:** 5-15 % non-ionic surfactants, <5 % kationic surfactants, <5 % EDTA.

## TECHNICAL DATA

### Dilution:

Normal use: 1 part to 20 parts of water.

Very dirty floors: 1 part to 10 parts of water.

**Coverage:** 25-30 m<sup>2</sup> per litre of diluted product.

### pH:

Concentrated: Approx. 13.

**Before application:** Shake/stir well before use.

**Application tools:** Cloth, atomizer, floor washing machine.

**Storage:** 1 year if unopened and stored at 20 °C. Not to be exposed to temperatures below 0 °C.

## DIRECTION FOR USE

### Floor washing machine:

- Add resin remover to the water tank, diluted according to recommendation.
- Do not use the product in direct sunlight.
- Two lanes of cleaning water should be spread in the longitudinal direction of the floor boards.
- Vacuum up immediately afterwards, or after being left to work for a maximum of 3 minutes.
- Always use as little water as possible to avoid damage to the floor. Accidental spillage must be wiped off immediately.
- If the resin has not been removed during the first pass, repeat the cleaning procedure.
- Afterwards the floor can be cleaned with SylvaSport Cleaner.

### Hard to remove resin:

- Lumps of resin can be left to soak in concentrated SylvaDissolver for a maximum of 10 minutes.
- If needed, use a spray bottle to apply the liquid to the marks.

---

## PRECAUTIONARY MEASURES

Before using the product, read the label on the container carefully and observe the recommended precautionary measures.

See Material Safety Data Sheet for detailed information.
