

STYLE CHART

Oak is a hardwood species characterised by having a very interesting grain structure. The wood species is exceptionally hard-wearing and therefore very suitable for flooring. White toned by using the colour Nordic White Plus, a pure and Scandinavian touch is added to the floor.

Junckers solid hardwood flooring is produced and categorized in accordance with EN 13629, EN 14342 and Junckers own factory standard. The floors are made exclusively from solid hardwood and the photographs illustrate the colour, knots

and structural graining variation characteristic for the specific wood species and grade. Each photograph shows the average appearance of the grade. It is normal to see a variation in appearance between individual boards, staves and floors produced and installed at differing times.

Up to 5% of the staves may contain features of the next style.

Hardwood floors may fade and change colour over time, especially when exposed directly to sunlight.

14 & 22 MM OAK NORDIC WHITE PLUS STRIPBOARD SOLID HARDWOOD FLOORING

TECHNICAL INFORMATION

THICKNESS x WIDTH: 14/22 X 129 MM

OAK NORDIC WHITE PLUS STRIPBOARD HARMONY

This grade has a natural look with more colour and structural graining variation between the individual staves. Medium sized knots and hairline splits occur to some degree. Sapwood occurs. Knots and other irregularities are factory filled with a one colour filler.
